THE SITUATION OF THE STATE CAPITAL. Augusta, Mr., Jan. 5,-The Governor and Council had no business session to-day, but

A guard of some 200 men is still maintained at the State-house. In room 17, opposite the agricultural rooms, there are sixty stands of arms stacked for immediate use. Everyone entering, pussing through or leaving the building is watched by the guard. Although every train is bringing crowdsinto the city, there has been perfect order, and not the slightest beligerent demonstration of any kind has taken place. The mayor has 200 extra policemen on duty, who will be ready at a moment's notice to enforce his order. Neither side has absolutely determined upon a course which is not subject to radical amendment. This much may be said, however—the Fundomists deem it all-important that they should have a quorum, and are reto radical amendment. Captain Coss, of Eath, and the Republican members-elect from the five disfranchised cities will ask for the same right. It is reported that telegrams have been reerived in large numbers from Democrats beyond the State, organg submission to the epinion of the Supreme court. Major-General Chamberlain came to the city last evening, having been summered by the Governor.

THE LEGISLATIVE CAUCUSES will be held to-morrow. The Republicans will probably nominate Jesseh A. Locke, of Cumberland, for President of the Senate, and George E. MEETING OF REPUBLICAN MEMBERS. The Republican members-elect held a meet-ing for compultation this evening, which was largely attended, and the feeling was confidently expressed that the verdict of the cour had made them masters of the situation, that as a sufficient number of these certified, but not elected, will refuse to act, it will prayent a quorum assembling autil the rightful mem-bers are admitted to their seats. GARCELON CONTINUES OBSTINATE. Gavernor Carcolon states that the decision of the court will not change his attitude toward the incoming legislature. The points in the opinion might serve as a guide to future, but his work had been performed under the Con-stitution and statutes as he understood them, and be should neither withdraw the certifi and he should heither withdraw the certin-superior intellectually, of any man in the cates nor issue new ones. A CAUCUS OF PUSIONISTS. AUGUSTA, ME., Jan. 5.—A caucus of Fusionists was held at Metropolitan Hall to-night, continuing to a late hour. I. W. Hill, a counted-in member, of Exeter, presided. Speeches were made upon the condition of affairs, proclaiming adhesion to the Constitu tion and laws as they understood them. They held in respect the opinion of the court, that should it be found they were in a majority in the legislature it should not be understood that they would invade the rights of the minority.

Judge Buckner, chairman of the Committee

Mr. Bayard intends to get bis resolution before the Sonate at the earliest date possible. It now seems likely that these two antagonistic resolutions upon the financial question—the one condenning and the other emphasizing the President's recommendations upon that question—will be before the respect-ive bodies into which they were introduced at about the same time. The feeling upon this Important matter has not materially changed since these measures were introduced, and it still looks as though the resolutions condemn-ing the President's recommendation for the destruction of the legal-tender quality of the

The Oblo Senatorial Contest.

One of the leading topics in the city last ight was the Senatorial election in Ohio. The Republican caucus will be held to-night, and the friends of Garfield and Stanley Matthews, who seem now to be the leading candidates are eagerly discussing the chances of their fa vorites. Persons recently from the scene of action in the Buckeye State are much sought after, and their words of prophetic wisdom as cagerly devoured. One of the most prominent Chickans here now is the Hon. Isaac Morton, of Guernsey county, who was the Republican candidate against Hon. Gibson Atherton when that gentleman was elected to Congress. Meeting the Hon, Isane last night, THE NATIONA

"Then what?"

"Then, in my judgment, Stanley Matthews will get the nomination. With Garfield out of the field, the natural tendency of all sensible Republicans will be toward Stanley Mat-thews, whom the majority of the people of the State of Obio consider the equal, if not the superior intellectually, of any man in the State. But I guess-you had better not inter-view me," said Mr. Morton, as he turned the

This is about the drift of opinion as it can be gleaned from the few Republicans of prom-inence from Ohlo now in the city. The senti-ment in favor of Matthews seems to have ment in layer of authors seems to have strengthened very considerably as the de-cision of the Senatorial succession approaches. From this distance it is impossible to under-stand why General Garfield's chances of success depend upon his securing the prize upon the first ballot; but certain it is that many of his best friends will be nervous about his suc-cess unless the nomination is decided in his favor before the strength of the other candidates can be crystallized into a working force

VIRGINIA POLITICS.

Republicanism Good Greend for a Divorce.

A most remarkable opinion has been given in the Virginia Court of Appeals by Judge Anderson, one of the judges in the case of Lahama vs. Latham, reported in 30th Cratton p. 307.

p. 30%.

In the case referred to, Mrs. Latham charges
in her bill that her husband required her to
conceal her want of sympathy with his political cause, and alleges that the sheek was se
great to her when she found, after her marclage, that her husband, whom, as a girl, she id admired and henored as one who has one his duty to his native State in arms, and whom she supposed to be still true, bad in fact allied himself with what are known in Vir-ginia as Radicals, &c., that she could stand it no longer, and was compelled to sue for di-vorce. In the opinion of Judge Anderson, dissenting from a majority of the Supreme court, and overruling the decree of the Corporation court of Lynchburg, that modern Jeff reys descants in the following happy voin:

"The shock and mortification of Mrs. La-tham was to find that her husband had not been true; that he had deserted his friends and had gone over to the enemy and had joined him in waging upon them a war more eruel than the war of arms. It was the perfidy—the moral taint—which she felt attached to him and which would likely exclude him from the best society of the State," and, therefore, this most right-cons Ku-Klux judge thought that the bonds of matrimony ought to be dissolved.
